Shrink Wrap/Security Tape Removal – for movie and music products

Removal of manufacturers' packaging expedites getting DVDs and CDs onto your shelves.

CATALOGING SERVICES

Baker & Taylor provides comprehensive cataloging services designed to meet your individual requirements, ensuring that your titles get on the shelves faster than ever. MARC records are available from the Library of Congress, OCLC and Baker & Taylor, which provides original cataloging conforming to all industry standards.

Options include:

Total Title Coverage

If no record is available from our various sources, Baker & Taylor catalogers will create original cataloging conforming to all industry standards for the titles that you ordered. This ensures that every title you receive from Baker & Taylor includes a cataloging record.

OCLC Services

Baker & Taylor integrates the strength of OCLC's database by providing you with options that include the OCLC number for record overlay, as well as having your holdings code updated in WorldCat.

Local Call Number

Send your local call number via EDI or Title Source™ 3 to be printed on your spine labels and embedded in your MARC records.

Item Linking - 9XX tags

MARC records include your barcode number, local call number, agency and collection codes and other local information to expedite getting items onto your shelves.

Record Consolidation

Enables consortia and multi-branch libraries to merge item data for multiple locations into a single MARC record.

Consortia Support

System/library administrators can request to only receive a record when the first member orders a title, providing a valuable means of duplicate management.

PREBINDING SERVICES

Various binding services, including paperback conversion to hardcover, are available upon request. For more information please email PawPrints@baker-taylor.com.
